# Modern Slavery Statement

**FM029**

Eco Sourcing Hub LTD is steadfast in its commitment to combatting slavery and human trafficking within its business operations and supply chains. We issue this statement to align with the requirements of the Modern Slavery Act 2015, pertaining to the financial year ending March 2025.

While our turnover falls below £36 million, exempting us from a legal obligation to produce a modern slavery statement, we acknowledge the profound impact of exploitation within supply chains ending in the UK. Consequently, we pledge to contribute to the eradication of exploitation in our society.

Recognizing that our cooperation is essential for customers obligated under the Modern Slavery Act 2015, we affirm the following actions:

1. We confirm that no relevant offences relating to slavery or human trafficking have occurred within our own business.
2. Through diligent inquiries, we are confident that no relevant offences have been committed by businesses directly supplying to us.
3. Within the bounds of practicality, we have scrutinized our supply chains and found no evidence of slavery or human trafficking.

**Further insights into our business and supply chain are as follows:**
